

Kincardine and District Horticultural Society

After having met for the last few years with the help of Zoom, the Kincardine and District Horticultural Society is now back in full swing, and we're all ready to get our hands dirty.

Our March Meeting featured speaker Sandy Elston, Kincardine, who spoke to us on Garden Art. She challenged everyone to think outside the box; one person's trash could be your next Arts Project. Always keep your eye on the prize!

For April, Master Gardener Margo Byers spoke on Culinary Herbs; how to grow, what they could be used for, how to dry them and store them. A great time to put more spice in your life!

The May 2 meeting is being held in the Senior's room at the Davidson center at 7 pm. Our Speaker **Emily Bi's Topic is Gingko Footprints - Spotlight on Peonies & More** (Although not legally required, the Hort Society highly recommends that masks be worn.)

Once again, this year we will be holding our **"Through The Garden Gate"** Garden Tour. The annual event celebrates its 25th anniversary this year. The tour, made up of 8 local gardens, takes place on **August 7, 2022**. It runs from 12 noon till 4:30 pm (rain or shine).

The tour is made up of gardens in Kincardine and area. If you have a garden that you would care to share, or if you know of another gardener who might like to participate in the tour, we are always on the lookout for more gardens.
